

# Turnkey Electric Vehicle (EV) Employee Benefit Program

## Save Employees Money. Attract Top Talent. Plan for Charging Infrastructure Needs.

MoveEV is the world's first plug-and-play software and services platform that eliminates corporate Scope 3 vehicle emissions, promotes "sustainability culture," and helps employees at every level save money through an electric vehicle adoption benefits app. With MoveEV, you also know exactly when employees will be making the switch and can plan for the transition.

### How Do We Help Employees Move to EV?

While there are significant financial and environmental benefits to going green, less than 2% of Americans currently drive electric vehicles. To be successful, our benefits program systematically breaks down the barriers to EV adoption. We:

#### Educate

about the benefits of switching to EV.

#### Create

a cultural environment that supports change.

#### Eliminate

barriers to purchase and reimbursement.

#### Celebrate

achievement for the greater good.

**DID YOU KNOW?**  
25% of corporate CO2 comes from employees commuting?

## MoveEV Supports Employees Through the Entire Process

MoveEV rapidly increase EV adoption rates by supporting employees throughout their journey with our app, call center, email templates, and in-person events. With MoveEV every employee gets:

**Educational Emails & Events**

**Personalized Cost/Benefit Analysis**

**Vehicle Comparison Tools**

**In-Person Test Drive Days**

**White Glove Buying Support**

**Financing & Reimbursement Support**

**Charging Station Guidance**

**Success & Impact Tracking**

## Protect Employees From Inflation & Rising Gas Prices

Switching to an electric vehicle is the equivalent of earning an extra \$24,000 – \$30,000 over the course of 5 years for the average employee. Help them go green and save!
